About
MakerHacks

MakerHacks is a cutting-edge hardware hackathon featuring the first ever independently released robotics challenge within the event. Teams will design, create and iterate their prototypes with our onsite makerspace in this hardware-software fusion hackathon. The primary goal of MakerHacks is to provide a competitive yet supportive environment for young tech enthusiasts to showcase their talents, develop new skills, and collaborate on projects that span both hardware and software domains.

Community Impact

200+ Hackers

30 Hours

20+ Experienced Mentors

Why Sponsor?

As the Bay Area's **first ever** robotics hackathon, sponsoring MakerHacks gives your organization a unique and direct opportunity to impact and connect with our future makers. Since MakerHacks is located in the core of Silicon Valley, this is your chance to connect with future makers. Your support helps us bring the ultimate fusion of software and robotics education to Bay Area high school students for the first time ever.

By sponsoring MakerHacks, **your company** gains visibility and recognition among a broad audience, including students, parents, educators, and industry professionals.

We invite you to join us in making a positive impact on high school students while benefiting your brand.

Other Ways To Sponsor

We're open to all kinds of sponsorship to help us facilitate our event more smoothly. This includes but is not limited to:

1. Providing monetary support
2. Providing food & merchandise (e.g. shirts, stickers) for our event
3. Mentors to assist attendees with robotics and technical aspects

Any more questions?

Please reach out to us via email at sponsorships@makerhacks.org! We'd love to hear from you!

Thank You!
